

Gilead's Research Scholars Program in Oncology Solid Tumors

Focused on breast, upper gastrointestinal, and lung cancers

The Research Scholars Program supports innovative research from emerging investigators around the world to incorporate new perspectives in our pursuit of scientific understanding and progress. We believe that new voices and research topics are needed to advance scientific knowledge in areas of unmet medical need and create a healthier world.

This program is designed to support any pre-clinical or clinical research limited to breast, upper gastrointestinal (esophageal, gastric, gastroesophageal junction cancer), or lung cancer than addresses any unmet medical need in the field of Oncology Solid Tumors in Australia, Canada, and Europe.

The Solid Tumors
program provides a
minimum of 3 awards

Each award is funded up to **\$180,000* USD**
for two years, to be paid in annual instalments
of up to **\$90,000 USD** per year*

Applications will be reviewed and selected by an independent Scientific Review Committee comprised of internationally recognised experts in pre-clinical and clinical research in the field of Oncology Solid Tumors. Not all applications will be selected.

Gilead's Research Scholars Program is committed to building a more diverse and inclusive scientific community.

Eligibility Criteria

Applicants must:

- Hold an MD or PhD (or equivalent degree) at time of application. MD qualifications should have been obtained within the last 10 years and PhD qualifications should have been obtained within the last 5 years
- Early career scientists with a strong track record of published research, who hold a position at a research institution for the duration of the award tenure
- Have a strong career interest in Oncology Solid Tumors
- Have a research mentor with extensive experience in the field of Oncology Solid Tumors
- Be able to devote at least 30% of their professional time to research for the next two years
- Be able to complete the proposed research within the 2-year award period

Exceptions to the above can apply, for example, having taken time out for parental leave or family bereavement

Citizenship

The Research Scholars Program in Solid Tumors is open to emerging investigators from:

- Australia
- Canada
- Europe

An applicant must be a citizen or permanent resident of one of the eligible countries or hold a temporary visa/work permit. This visa must be valid for the duration of the award period or the applicant must be able to demonstrate that they are eligible for an extension, renewal or other status that will enable the applicant to undertake the research for the entirety of the two-year award.
