Welcome Letter

Dear Colleagues,

Oncology is evolving at an unprecedented pace. Integrating scientific advances into everyday clinical practice is not only a challenge, but also an absolute necessity. In recent years, significant progress has been made in the diagnosis and treatment of cancer patients, shaping a new landscape in the field.

Each year, the ASCO Annual Meeting stands as the premier scientific event for the global oncology community. It serves as a platform where the latest clinical and scientific breakthroughs are presented, and new therapeutic options are unveiled.

We are truly honored to welcome you to the “Best of ASCO 2025 – Event in Greece,” taking place in Athens on July 4–5, 2025.

This Educational Meeting aims to highlight and present the most impactful and practice-changing studies from ASCO 2025. We will also explore the challenges that may arise when incorporating these findings into our daily clinical routines.

In collaboration with ASCO, the Organizing and Educational Committees have carefully selected the studies to be presented, which will be showcased using the original slides as delivered during the Annual Meeting. The carefully designed thematic roundtable discussions, featuring distinguished speakers selected for their expertise, will focus on how these new data will influence oncology practice in Greece.

We warmly welcome you to this event, with the hope that our efforts will provide meaningful insights and valuable knowledge — especially for those colleagues who were unable to attend the ASCO Annual Meeting in person.

Best regards,

On behalf of the Organizing Committee

Athanasios Kotsakis MD, PhD

Professor of Medical Oncology,
